EXPERIENCE

JP Morgan Chase & Co.

Software Engineering Virtual Internship.

📅 April 2020 – May 2020 📍 Online

- Research on establishing financial data feeds.
- Working on Frontend Web Development.
- Experience with data visualization with perspective.

Machine Learning

Coursera

📅 April 2020 - July 2020 📍 Online

- Supervised Learning, worked on SL to train model to recognize the pattern in given data with more efficiency.
- Worked on support vector machines (SVMs, also support vector networks) which is supervised learning models with associated learning algorithms that analyze data used for classification and regression analysis.

ACHIEVEMENTS

- 5 star in problem solving on HackerRank.
- Handled the social media pages of Student Council, GCET.
- Scored 90+ in Computer Applications(Java Programming) in both ICSE and ISC.

TECHNICAL SKILLS

- Java, SQL(MySQL), MS Excel, Data Structure and Algorithms
- C++, MATLAB, Python, C, Android Studio(Beginner), HTML5, CSS, JavaScript

COURSES AND CERTIFICATIONS

- Machine Learning- Stanford University(Coursera)
- Python Programming- Indian Institute of Technology, Kanpur
- Using Databases with Python
- Excel Skills for Business.

EDUCATION

B.Tech. (ECE) - 7.5 CGPA

Galgotias College of Engineering & Technology

📅 July 2018 – Currently

Higher Secondary - 91%

Indian School Certificate Examination

📅 2017

Secondary - 95.2%

Indian Certificate of Secondary Education

📅 2015

PROJECTS

FLORENCE- A HealthCare Chatbot

- Implementation of a chatbot that can help users to: analyze the symptoms and predict possible disease and connect to the nearest doctor and make an appointment using RASA NLU.

Gesture Recognition using Video Processing on Python

- In this project, we learnt about: Background Subtraction, Motion Detection, Threshold and contour extraction to nicely segment hand region from a real time video sequence using OpenCV and Python..

EXTRA CURRICULARS

- Member of Women Who Code, Delhi.
- Associated with Ehsaas- a NGO with an idea to bring positive changes in health, education and economical and social status of underprivileged section of the society.
- Running a food blog on Instagram with an audience of 13k followers.
- Member of the school Social Service Club, Gandhi Corner, and the Nature Club, P.A.L.S.
